ERGOSAFE & INNOVATION

Innovation is essential to ErgoSafe. We have developed a completely new balustrade system adaptable for both ground-level and balcony installations. ClickitUp® by ErgoSafe is an innovative glass balustrade system offering multiple features that combine safety, design, and functionality into a sustainable concept for all types of outdoor environments.

SWEDISH & SUSTAINABLE

ErgoSafe, founded in 1996 in Halmstad, is a Swedish company with its own factory, ensuring high-quality glass balustrades crafted by our skilled team. We operate in highly modern facilities, utilize recyclable materials, and prioritize sustainable choices. Our goal is continuous improvement and a commitment to both the environment and people.

QUALITY & SAFETY

We highly value quality and safety. Our diverse product groups impose strict demands on us as a supplier. Demands we consider fundamental to meet and uphold on a daily basis. Our products undergo extensive testing and inspections to comply with legal requirements and product specifications.

„The glass balustrade from ErgoSafe with the brand ClickitUp® is protected by: Design right 002416248. 001-005. March 3, 2014. Due to the design protection, no other actor within the EU has the right to sell or import copies of the glass balustrades from ErgoSafe.“

WEATHER PROTECTION IN GLASS FOR OUTDOOR SEATING AREAS

On hotel and restaurant patios, glass balustrades and wind protection systems face tough challenges. They must withstand both wind and weather to ensure year-round usability. This makes choosing the right products crucial. Our extensive experience and comprehensive reference list testify to our expertise. Together with our partners, we offer guidance and support throughout the entire process. We deliver durable, reliable glass balustrades that enhance outdoor spaces, making them safer and more inviting—whether for ground-level installations or balcony applications. Contact us today!

ClickitUp

Glass balustrades for Horeca

The height-adjustable

Added Value: ClickitUp

- + Height-adjustable
- + Extend season
- + The Original
- + More comfort for all guests

ClickitUp is the original model of our glass balustrades with a free glass edge and height-adjustable function.

The glass balustrade impresses with its elegant and stylish design. ClickitUp creates the perfect conditions for a wind-free and sleek oasis in outdoor seating.

This variant is ideal for ground-level outdoor seating areas that require extra wind protection. Available as a straight section, door and curved corner.

Product Name	ClickitUp

CiUFixed

Glass balustrades for Horeca

The Classic

Added Value: CiUFixed

- + Elegant design
- + Compatible with ClickitUp
- + Easy installation
- + Also available as a door & curved corner

The fixed glass balustrade CiUFixed is suitable for ground-level outdoor areas.

The glass balustrade is recommended for those who value a perfect fusion of construction and design. Additionally, it should not go unmentioned that this variant is particularly easy to install.

ClickitUp and CiUFixed can be perfectly combined.

Product Name	Glass balustrade for ground level
Description	Straight section, door, curved
Products	Safety Glass
Safety	The balustrade must not be installed where there is a risk of falling

CiUFlex

Glass balustrades for Horeca

The flexible

Added Value: CiUFlex

- + Easy to upgrade to ClickitUp
- + Innovative construction
- + Chic and stylish design
- + Also available as a door

CiUFlex features a design that allows for an upgrade of the glass balustrade with an upper movable glass section.

The CiUFlex product is designed for ground-level outdoor environments, with a construction that allows the fixed and movable parts to be ordered at different times.

The upgrade with the movable part is easy and once completed, CiUFlex has the same design and appearance as ClickitUp.

Product Name	CiUFlex
Description	Glass balustrade for ground level with the option to upgrade to ClickitUp with an upper movable section
Products	Straight section, door

Seat depth (bench)	400 mm

BUILD A SECTION WITH PLANTER BOX OR BENCH
Choose either a planter box or bench and decide if the section should have adjustable skids or wheels. Finally, select the groundlevel glass balustrade variant that best suits our project.

OUR GLASS BALUSTRADES

*Elegant glass
weather protection –
ideal for outdoor
seating areas*

CLICKITUP BY ERGOSAFE - THE FLEXIBLE GLASS BALUSTRADE SYSTEM

We offer several variants of glass balustrades, tailored for both ground-level and balcony installations. With a wide selection of accessories and mounting details, we provide the market with a flexible balustrade system that suits various needs and environments. With ClickitUp[®] by ErgoSafe, you get a durable, functional, and sleek solution that creates a safe and attractive outdoor space for your guests, while also offering the opportunity to maximize seating capacity for the restaurant.

FLEXIBLE DESIGN FOR ALL OUTDOOR ENVIRONMENTS

For our ground-level glass balustrades, additions such as a planter box or bench can be incorporated, creating freestanding sections that do not need to be anchored to the ground. Multiple sections can be combined to form a completely freestanding barrier, ideal for creating a flexible and private outdoor seating area. On rooftop terraces, the system adds both safety and aesthetic elegance, making the outdoor environment both attractive and functional.

THE FLEXIBLE WIND PROTECTION FOR OUTDOORS SEATING

The height-adjustable glass balustrade ClickitUp is the perfect choice for the HORECA segment and outdoor seating areas, whether the installation is at ground level or on a rooftop terrace. With its height-adjustable feature, ClickitUp offers both flexibility and comfort for guests. The glass balustrade can be easily adjusted to protect against wind and weather, allowing the outdoor seating area to be used year-round without compromising the view or atmosphere.
