

Windscreen in Glass

The solution for the outdoor seating

ClickitUp[®]
by ErgoSafe[®]

CRYSTAL CLEAR

ClickitUp® glass balustrade combine design, quality, safety, and function through the use of glass, aluminum and structural glazing adhesive technology. It offers a minimalist look and height-adjustable features.

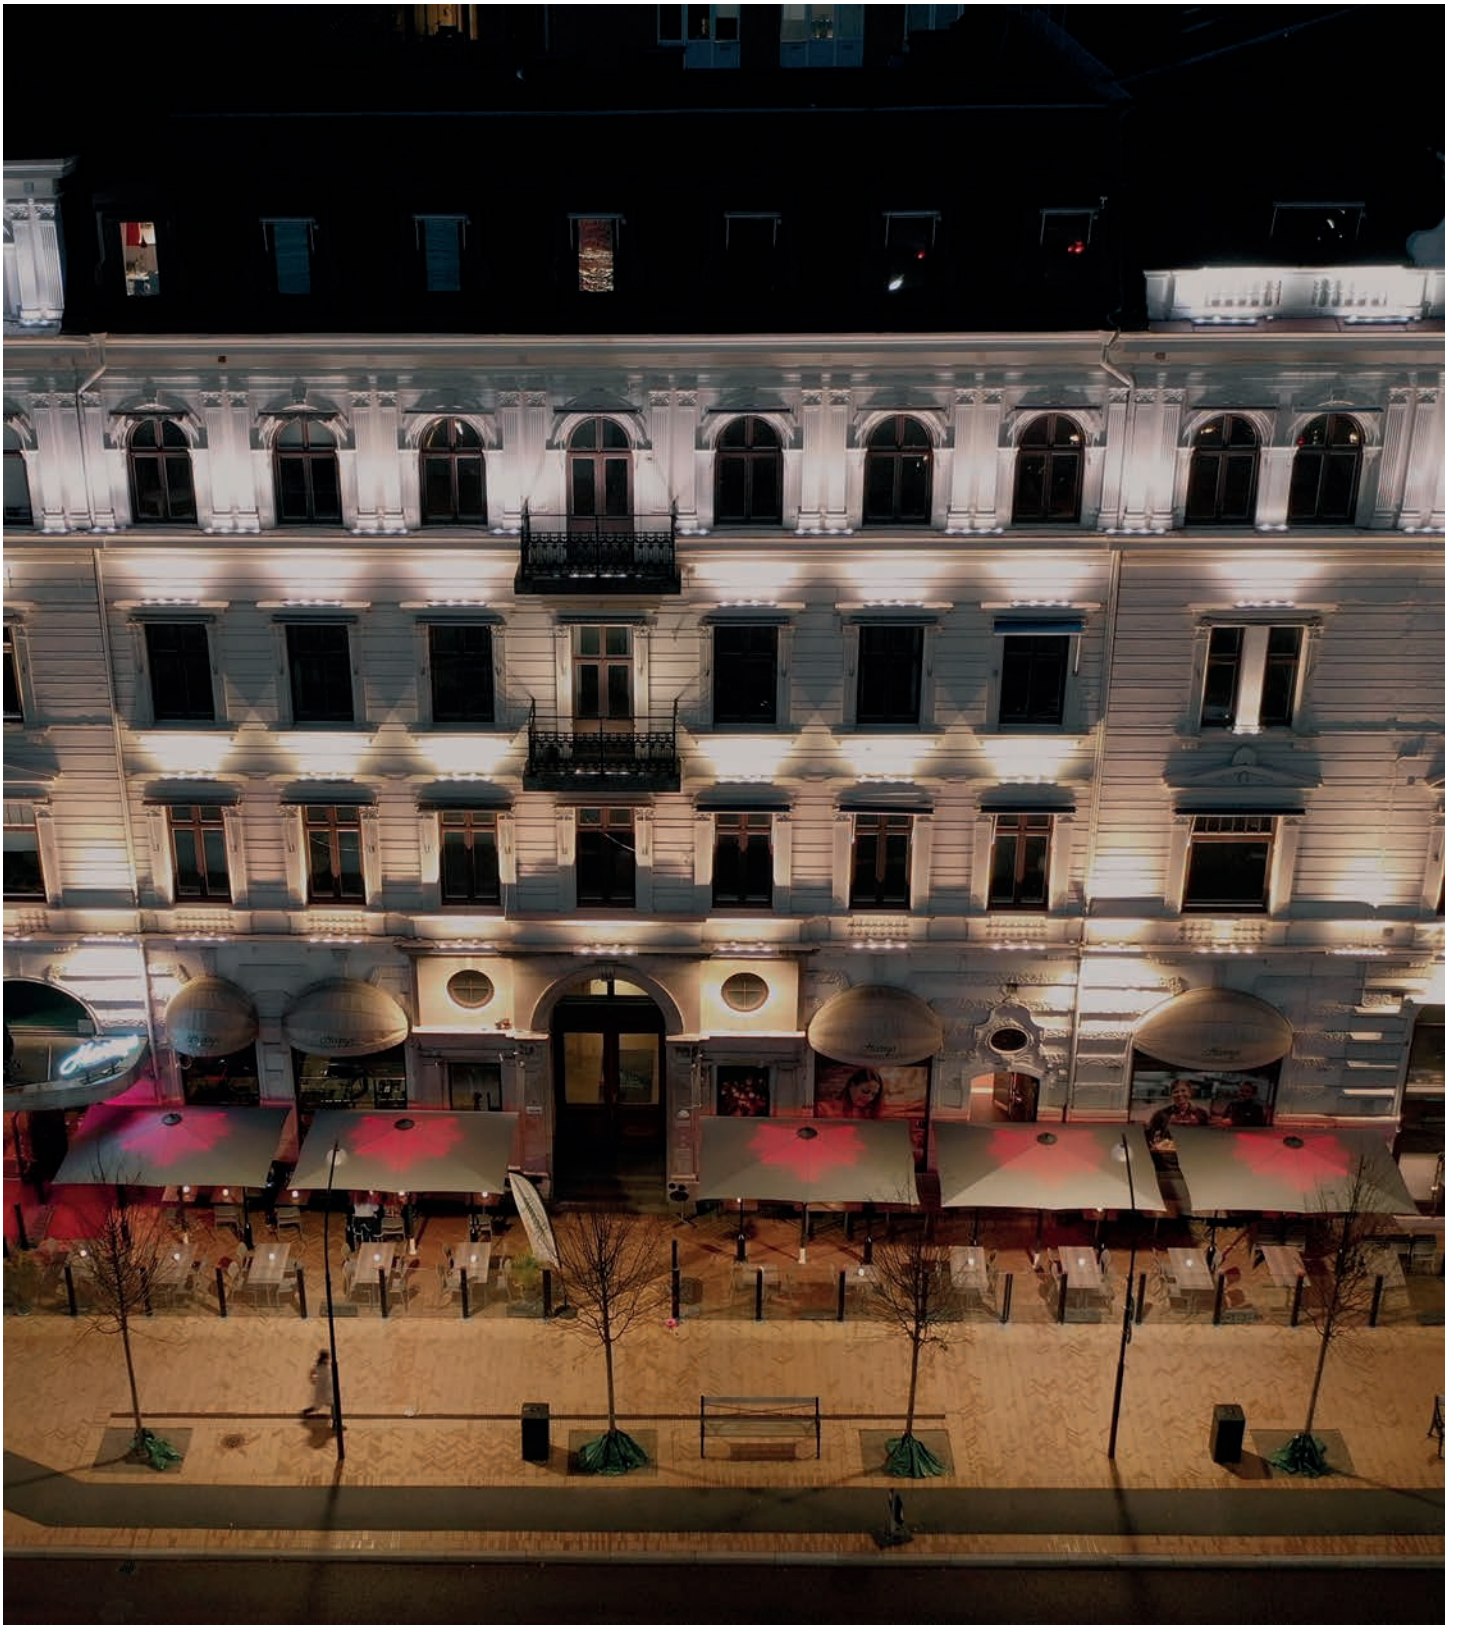

SWEDISH & SUSTAINABLE

As a Swedish company based in Halmstad, we guarantee the highest quality. Our production is carried out under the most modern conditions and focuses on sustainable, recyclable materials. We prioritize sustainability and take our responsibility for people and the environment seriously.

QUALITY & SAFETY

We place great value on quality and safety. Our products undergo numerous tests and verifications, depending on legal requirements and product specifications.

The glass balustrade from ErgoSafe with the brand ClickitUp® is protected by: Design right 002416248. 001-005. March 3, 2014.
Due to the design protection, no other actor within the EU has the right to sell or import copies of the glass balustrades from ErgoSafe.

On the outdoor terraces of hotels and restaurants, glass balustrades and wind protection systems are often exposed to extreme conditions. They must withstand wind and weather and are used almost all year round. The right choice is crucial for your investment. Our many years of experience and numerous references speak for themselves. We would be happy to advise you!

ClickitUp

Glass balustrades for Horeca

The height-adjustable

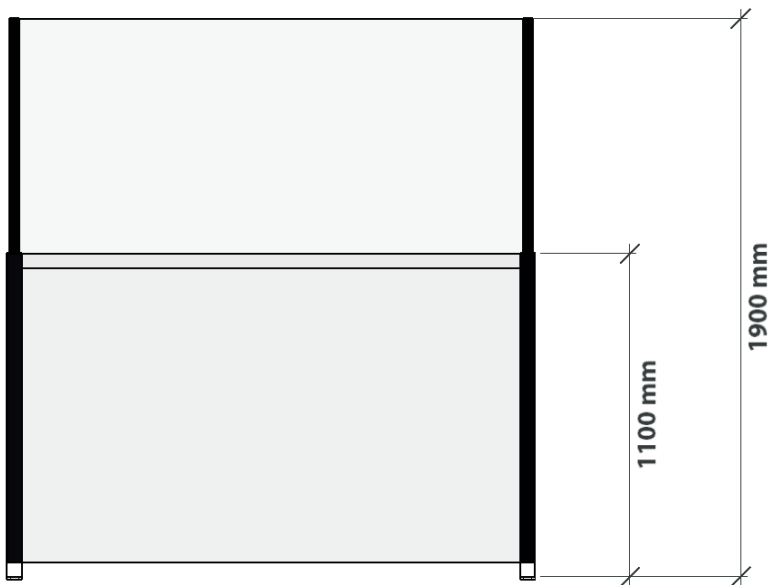

Your Added Value:
